From Kootenay.

ELECTION NEWS.

Mr John Jessop arrived in this city yesterday, having accomplished the journey from Kootenay, via Portland, in the short space of 15 days. The news is consequently to the 16th inst, but is very interesting. It appears that the mining communities in that section of country have dwindled down to a low ebb. The white population on Perry creek is estimated at 18, and on Wild Horse creek at 30. On the latter creek there are still about 150 to 175 Chinese. The shallow diggings are mostly worked out, and there is not a sufficiency of capital to attempt the deep diggings, which are supposed to be good, but are very expensive to work. A party of 4 men, with 9 months' provisions, started out on the 15th for the purpose of prospecting Findlay creek, some 65 miles north. Business is very dull. The Hudson Bay Company's business is being closed out. Mr Johnson, the expressman, started to come down on the same day that Mr Jessop left. He was accompanied by Mr Haynes, Messrs McKay and Hardisty of the Hudson Bay Company, and Mr Carrington, constable.

THE ELECTION.

was held by Mr Haynes on the 14th, the nomination and polling being on the same day. Polls were held on Wild Horse and Perry creeks. There were two candidates—viz, Mr John Jessop of Victoria and Mr Robert Skinner, son of Mr T. J. Skinner, Maple Bay. There were in all 54 votes polled, 14 being for Mr Jessop and 40 for Mr Skinner. Sixteen of the latter were, however, protested against by Mr Jessop, on the ground that the voters were not British subjects.

Assault.—Wm Cornow and John Roberts were yesterday examined before the Police Court on a charge of assaulting an Indian man and woman on the Esquimalt road, between Rock Bay and the Arm. The evidence of assault was not sufficiently clear for conviction and the examination was postponed one day. A cross charge was preferred against Susan, the Indian woman, for an assault upon Cornow which was also postponed.

The steamer Sir James Douglas, Capt Clarke, arrived from Nanaimo yesterday at 3.30 p. m., having 20 passengers, 6 head of cattle, 8 hogs, a quantity of produce and other freight. Amongst the passengers was Chief Justice Begbie, who has just returned from Nanaimo, where he has conducted the Assizes. The Sparrowhawk is still at Nanaimo. The barkentine Victor was lying off Cedar Hill when the Douglas came past.

THE KOOTENAY ELECTION.—It will be seen by reference to our Kootenay Intelligence that Mr Skinner received a majority of 26 votes at Kootenay. Should there have been no poll held at Big Bend, Mr Skinner will have been elected by that majority. We are not aware of what Mr Skinner's political principles are, although we have heard a rumor to the effect that he is opposed to Confederation.

ACTIVITY ON THE SOUND.—Our contemporary of the Seattle Intelligencer alludes to the fact that the steamers plying on the Sound are generally crowded with passengers passing between the different places of call, even as far up as Bellingham Bay and Semiahmoo, and assigns as the main cause the rapidly increasing attention which is being given to the occupation and cultivation of the agricultural lands along that magnificent Archipelago.

CALIFORNIA LOTTERIES.—In an action brought against a party for selling Marysville lottery tickets it has been ruled that the Mercantile Library Lottery law repealing the penalty for violation of the constitutional provision against lotteries, has let down the bars, and enables anybody to sell tickets and maintain lotteries with impunity.

THE MAXWELL SURVEY.—The impression which we gather from the Seattle Intelligencer is that there exists no little doubt as to the ability of Mr Maxwell to complete his survey of the Snoqualmie Pass this season, owing to the rains and snow.

THE MAIL STEAMER ISABEL, Capt Starr, arrived from Port Townsend last evening, bringing a mail from Olympia and Sound ports. She will sail for Nanaimo this morning at 8 o'clock, where she will coal and proceed direct to Port Townsend, Parker Park and Capt Morrison have our thanks for late papers.

THE LANE & KURTZ MINING COMPANY.—Mr J. S. Greenman, a heavy shareholder in this company, and Col C. O. Lane, general agent, arrived yesterday on the Olympia. Both gentlemen are accompanied by their families. Mr C. O. Lane, the engineer of the Lane & Kurtz Co, also arrived yesterday.

BALL.—Capt Herbert and the Officers of H. M. S. Seylla entertained a large number of ladies and gentlemen from the city last evening at the Naval Hospital, Esquimalt. Among these present were His Excellency the Governor and Mrs Musgrave, the Misses Musgrave, and the heads of the Departments of Government.

GOV SALOMAN, of Washington Territory, and suite, sailed yesterday in the U. S. steamer Lincoln for home. His Excellency called at Government House on Wednesday.

WALLA WALLA.—The lands in this part of the Territory are being settled more rapidly than formerly. During last month about 2000 acres were entered at the Land Office.

TACOMA MILL.—The damage done to this mill by the recent fatal explosion, says our Seattle contemporary, has been repaired and everything is again in working order.

Cariboo, Omineca and Elsewhere.

A gentleman who left Barkerville on the 21st November, informs us that there were about 15 inches of snow on the creek and weather mild. The Barkerville and other companies were preparing winter quarters. At the mouth of Quesnelle and at Soda Creek there were a number of Peace River miners gathered. They were well pleased with their season's work.

Mr Delatre, who resides at Yale and is an old, experienced miner, states that he believes the new mines on

GERMANEN CREEK.

Will pay from one to three ounces per day to the hand—that is the ground already discovered. The diggings are shallow and easily worked. Flour and every other article except salt was a dollar per pound. Salt was selling for \$1 per ounce. Beef was fifty cents per pound.

A PROJECT.

Is on foot for the purpose of cutting a trail which will only be, at the most, six miles in length, and will save 70 or 80 miles of travel to Germanen and other new creeks for persons going by Quenelmouth.

HILL DIGGINGS.

Are reported to have been discovered in the Omineca country in the vicinity of Vitale creek. If this report prove true, the Colony is on the eve of rich discoveries before which the earlier discoveries of Cariboo will seem insignificant.

THE WAGON-ROAD.

Through the green timber and elsewhere is in splendid order. The bridges at Nicaragua Slide and Jackass Mountain have been well secured, and the roadmakers are still employed in rendering all things safe for the winter.

DANGEROUS ASSAULT.—J. W. Gramslaw was yesterday brought before the Police Court charged with having pushed Henry Davies, son of J. P. Davies, through a window of the Oriental Restaurant on Wednesday night last, causing serious injury by wounds being inflicted with the glass. The offence charged was proved by two witnesses, Edwin Costello, and David Davies, brother of the injured boy—who testified that Gramslaw deliberately put his hands on the boy's shoulders and pushed him through a pane of glass in the window. Dr. Ch. Riems testified that he dressed the wounds of the injured boy, which were quite serious—one over the left eye was 2½ inches long, which was the most dangerous. There were several small cuts on the face, and one on the nose, which were pretty deep but not dangerous. He considered it would be unsafe to bring the boy to Court in his present state, as exposure might induce erysipelas. He thought the case was not dangerous if he was kept in the house. Three pieces of glass were exhibited in Court which were extracted from the face of the injured boy.

REUNION.—There will be a Tea-meeting and Siree on the 20th inst for the benefit of the Order of Good Templars in this city. This Order, based upon the principles of Temperance and Benevolence, has, we are glad to know, attained a high degree of efficiency and usefulness in Victoria, and we have no doubt that frequent reunions such as the one contemplated would tend to increase the popularity and strength of the Order by doing away with an impression that because its members are 'Tea-totallers' they must, therefore, be long-faced, morose beings, utterly incapable of social enjoyment, and entertaining a perfect horror of anything like 'fun and frolic.' There is every reason to believe that the occasion will be one of no ordinary enjoyment. In the interest of a most deserving institution, we wish it the utmost success.

THE WAR.—Our last night's dispatch contains highly important news from the seat of war. The great army of the Loire, the last hope of France, has been destroyed, at least so says the telegraph. The rumor that Paris has capitulated may or may not be true; that is of little importance, as its capitulation can only be regarded as a question of time; and that time must now be measured by days, if not by hours. Why should Paris hold out, now that all hope of succor from without has been cut off? That point would really appear to have been reached beyond which further resistance ceases to be valour—it becomes madness! If Paris has not already capitulated we shall be in hourly expectation of the announcement. Poor France.

THE DRAMA.—Miss Minnie Pixley takes a benefit at the Theatre Royal to-morrow night. It will no be needful that we should employ many words in commending the occasion to the liberal patronage of a community in which these accomplished artists have become such favorites. It is enough to say that the performance promises to be a good one in every respect, and that it is for the benefit of this popular young lady. We may mention that Mrs Pixley arrived yesterday, and will take part in the performance to-morrow night.

STILL THEY COME.—Good news from Peace River comes thick and fast. Ten Chinamen arrived at Quenelmouth with \$18,000 in dust from the Omineca mines. They averaged \$30 per day to the hand. Kwong, Lee & Co have received a letter announcing this. There will be a rush of Celestials to the new diggings next spring.

ALIBI.—Thos Geo Smith, under a charge of the murder of Baker, on remand from the 28th ult, in order to give the prisoner an opportunity to prove an alibi, was again before the Police Court yesterday. One witness was examined and the case was again remanded until Monday next for other evidence.

THE STEAMER OLYMPIA, Capt Finch, arrived from Olympia and ports on the Sound, yesterday at 1.50 p. m., bringing about 30 passengers. Purser Finch has placed us under obligations for late files of Sound papers.

AT GERMANEN CREEK DIGGINGS vinegar is worth \$5 per pint. All a fellow has got to do is to walk through the camp and look sour and his fortune will be made.

OUTWARD BOUND.—The ship Aylmar, lumber laden from Moody's mills, Burrard Inlet, anchored in Royal Roads yesterday and will to-day sail for Callao.

THE CAPTAIN RELIEF FUND.—The net result of the performance for the benefit of the Captain Relief Fund was \$211—very creditable.

THE SHIP POCAHONTAS will be due in a few days from the Hastings Mills with spars, which she will carry to Cork for orders.

IMPORTANT REDUCTION.—R. Brodick & Co announce that after the 15th of this month they will reduce the price to \$10 per English ton, delivered, for Nanaimo coal, and \$9 50 per English ton for Newcastle coal, delivered.

UNFORTUNATE.—There is a temporary suspension of telegraphic communication with Europe, notwithstanding there are no fewer than three cables. Such a condition could scarcely be presented at a more inopportune moment, and it is to be hoped that it may be of very short duration.

By Electric Telegraph.

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES.

EUROPE.

BERLIN, Nov. 29.—The Parliament has granted an extraordinary war credit asked by Government. There were 180 yeas to 9 nays. The opposition came from the socialist and democratic members.

DEIBRUCK announced the ratification by the Federal Council of the treaty for the union of the Kingdom of Wurttemberg with the Confederation. He said the adhesion of Bavaria would be considered on Wednesday. The treaty provides that Bavaria shall maintain an independent military jurisdiction under command of her King; but the organization, artillery and equipment of her army are to be modified to conform with the Prussian system.

The Gaulois calls Gambetta the Tyrant of Tours.

TOURS, Nov. 28.—Several persons wearing Sadowa medals were taken prisoners.

ST. PETERSBURG, Nov. 30.—Letters from all quarters show the loyalty of the people and prove that Russia is unassailable and fearless of hostile alliances. No Ministerial instructions are given the press, but the St. Petersburg Gazette has adopted a partial (?) policy, its sale is forbidden in the streets.

The proposed conference at London on the Eastern question is most favorably received at St. Petersburg.

LONDON, Nov. 30.—Lyons awaits the decision of the Tours government before sending a Plenipotentiary to the conference.

VERSAILLES, Nov. 30.—On Monday and Tuesday cannonading was maintained by the Paris forts, followed by sorties in force supported by gunboats in the direction of La Haye, and on the position held by the Fifth Prussian Army Corps. Simultaneously other sorties were made in other directions, all of which were repulsed and 600 French prisoners were taken. Prussian loss was 7 officers and 100 men.

The French have been beaten near Amiens and retreated in disorder towards Arras with the loss of 4 guns.

BRUSSELS, Nov. 30.—The Independence Belge has a Berlin dispatch to the effect that England accepts a conference provided Russia will satisfactorily explain Gortzschakoff's first circular.

BEAUNE, Nov. 28.—The main body of the French attempted to force a passage towards Fontainebleau by a heavy attack and encountered the Tenth Prussian corps at Beaune reinforced by the 5th infantry and 1st cavalry divisions. The French were repulsed with heavy loss in killed, wounded and prisoners—especially the latter. The army of the Loire was consequently withdrawn.

VERSAILLES, Nov. 30.—It appears that the greater portion of the French army of the Loire were engaged against the 10th Prussian troops at Beaune. Their defeat was complete, and 1000 killed were left on the field by the French. Seventeen hundred wounded prisoners have already been taken and the number continues to increase.

LONDON, Nov. 30.—The rumored capitulation of Paris caused a buoyancy in the Stock Market here.

VERSAILLES, Nov. 30.—There was an unsuccessful attempt made by the French prisoners to escape at Antioch.

The Paris sorties on Monday in the direction of St. Cloud were repulsed with small loss.

BERLIN, Nov. 30.—The Queen has received a dispatch from King William, dated Thursday, Nov. 29th, which says: Frederick Charles reports the complete defeat of the army of the Loire in the battle of Monday in which the French had the 20th corps and probably the 18th and portions of the 15th and 16th corps engaged. One thousand French were wounded and 4600 taken prisoners. Gen Aurelles de Paladines is reported wounded. The German loss was 1000—among them two officers.

The ship Worcester, for Hamburg with guano, has been captured by a French man-of-war.

LONDON, Nov. 30.—The Globe this evening publishes an announcement of the capitulation of the entire army of the Loire. The report can be traced to no authentic source. Nothing was known of such an event at the German Legation here at 9 o'clock.

Letters by balloon from Paris, private letters from Versailles and dispatches from Berlin all concur in representing the prospects of the French as extremely gloomy.

The German army, in recent engagements with the army of the Loire, lost enormously, but still their positions have been held and the efforts of Gen Aurelles to advance to the relief of Paris, failed.

The provisions of Paris are almost exhausted—scarcely a fortnight's supply remains.

Queen Victoria has visited the Empress of the French at Chislehurst. The interview is said to have been very affecting.

The Luxine question approaches a peaceful solution. It is confidently expected that the conference for its settlement will be held at London.

An English dispatch, relative to the conference, was received yesterday. No answer has yet been returned. Government is inclined to consider England's conduct irregular in urging the adherence of France to a proposition coming from Prussia.

BERLIN, Nov. 30.—Private advices from Vienna represent that Austria, England and Italy accept the Russian proposal for a conference, with the understanding that the claims of Russia are not to be prejudiced by her participation therein.

Eastern States.

WASHINGTON, Nov. 28.—The schooner Rebecca, seized on the Rio Grande by the U. S. Custom House officials for smuggling, is now claimed by the Mexican Government as a prize on the ground of a previous seizure for a similar offence by its revenue officers. The case is now under consideration by the Treasury Department.

MONTGOMERY, Ala, Nov. 28.—The conflict which has arisen between the old and new State governments, Smith and Bingham,

Governor and Treasurer, refuse to resign their offices to their successors, and have obtained troops from the commanding officer to protect them. Both branches of the Legislature were in session to-day. The Senate adjourned without taking action, but the House appointed a committee to investigate by what authority troops are quartered in times of peace at the capital.

NEW YORK, Nov. 30.—The following has just been received: The steamer Robert Lowe sailed from Heart's Content on Saturday to repair the Atlantic cable of 1867, which was injured about 60 miles from that point. We have also just learned that the cable of 1865 has also ceased to work and that the fault is at about the same distance from Heart's Content. It is therefore probable the steamer grappled the wrong cable, but being on the spot it is hoped both cables will soon be repaired. Although the French cable is able to transmit westward with about the usual facility, it is from some unexplained cause unable to transmit eastward except with great difficulty and very slowly. Notice is hereby given that for the present no messages will be received for any part of Europe. The public will be informed at the earliest possible moment when messages can be received for Europe. Signed, Cyrus W. Field.

California.

SAN FRANCISCO, Nov. 30.—The case of Goodman, charged with selling Marysville Lottery tickets, came up in the Police Court to-day. Judge Sawyer said he was satisfied that the Mercantile Library law, repealing the penalty for violation of the Constitutional provision against lotteries, let down the bars and enabled anyone to sell tickets or maintain a lottery with impunity. He also said he had conferred with several District Judges and they agreed with him in his opinion, as did several leading lawyers. If the offence of selling tickets was proven he would hold the defendant guilty of a violation of the Constitution but would impose no penalty; as the Legislature had removed the penalty none could be imposed. The sale was not clearly made out and Judge Sawyer said he would take the case under consideration on the point as to whether he could be convicted of an attempt to sell; but if he did so convict, the result would be the same, as he could not impose a penalty for the reason above stated.

Weather cloudy but no rain.

Over \$2,000,000 in greenbacks and postal currency, cancelled on account of mutilation, goes East in charge of a special Treasury agent to-morrow.

The treasure shipped East by the railway last week amounted to \$200,294.

The annual dinner of St. Andrew's Society at the Grand Hotel this evening is more largely attended than any previous one given in this city.

It is rumored that a duel is on the tapis between Ned Ryan and Sam Gardner, who had a shooting affray this morning on account of Ryan's black-and-tan jumping on Gardner and muddying his coat sleeve. Ryan offered to clean the mud off, but instead of doing so he cut the soiled part off with a bowie knife. Gardner then shot twice at Ryan without effect. The challenge is said to have passed and it is rumored the duel will come off at day break to-morrow.

Like Brokawa who killed White-headed Bob, has been taken before the Coroner to testify as to the killing, this evening.

Nevada.

AUSTIN, Nov. 30.—A colored child 4 years old, adopted by Mrs Strother of Austin, was found dead last night in the cellar of the house by Mrs Strother, who had confined her there for some trifling offence. The coroner's jury returned a verdict of 'death by fright.'

A Bogus Count.

FROM AN ENGLISH PRISON TO GO THAM'S FASHIONABLE DRAWING ROOMS.

From the New York Sun, October 18th.

When the Russian fleet was in New York harbor a few years ago, as everybody will remember, a ball was given in the Academy by the city to the officers. At this ball a young man presented himself as a Russian nobleman, the Count Metzkewitch, and as a member of the Russian party he was invited to share in the festivities. He cut a magnificent figure, and promenaded and danced with the first belles in the city with noble condescension. He was introduced to a young beauty of the greatest respectability, to whom he addressed himself with ardor. His introduction to the miss and her mother was formal and correct, and of the latter he asked permission to call and pay his respects next day. He called accordingly and by his conversation and bearing ingratiated himself into the good graces of his hostess and her daughter. After much common-place conversation the attention of the Count was accidentally directed to a dazzling diamond ring which glittered on the finger of the daughter. He expressed his admiration of the jewel, and the young lady, with well bred grace took it from her finger and handed it to her noble friend. He was enraptured. It was the purest gem that he had ever seen. It was like the fortunate owner, beautiful, incomparable. And artistically twirling it in the sunbeams with an apologetic air the nobleman placed it on his little finger, and forthwith began to talk on some other subject. He was good-looking. He was fashionably dressed. He was fascinating. He was detestably affectionate. Likewise he was a Russian count. An hour or two slipped away and as other visitors called Count Metzkewitch took his leave. Might he call again? Oh, certainly. Might he hope to have the supreme felicity of including the young lady in his list of friends? No objection in the world. 'But Count,' said the unsuspecting girl, 'do you forget to return the ring I handed to you a few minutes ago?' 'The diamond ring!' exclaimed the Russian noble, with an air of virtuous surprise; 'I returned it to you immediately after you handed it to me for inspection.'

The young lady quietly protested that she had not received it, and the

Count in turn solemnly averred that she had. As the too well-bred beauty was unwilling to create a disturbance, the illustrious foreigner was allowed to depart.

Shortly after he had gone, however, she resolved to look for ring. The first place she went to was Bishop & Rein's, and there she found the ring which was sold by the Count for \$600. The mother of the young lady representing that the ring was her property, replevied and the distinguished Russian with the unpronounceable name, was arrested and lodged in the Tombs for the theft. He escaped punishment solely because the young lady did not like to appear even as a complainant in such a place as the Tombs.

The Russian noble disappeared and subsequently turned up in London as a prisoner at the Central Criminal Court on a charge of larceny. He was sentenced to five years imprisonment.

A few months ago this same Russian Count appeared in Paris and got into fashionable society. Two months ago he managed to gain admittance into the American club in that city but his former villainous record becoming known he was ignominiously kicked out.

At the present time Count Metzkewitch is flourishing in this city. He may be seen on Fifth Avenue attired in the height of fashion and with a beautiful woman on his arm. This young lady is the daughter of a late wealthy banker in one of our western cities to whom he is engaged to be married. The man is a miserable adventurer and a despicable rascal. He has been recognized and it is believed that he is staying at the Clarendon.

CHANG, one of the Siamese twins, has recently suffered severely from paralytic seizures and the medical fraternity have been industriously discussing the question of the possibility of the separation of the brothers in case one of them should die. The condition of Chang is stated in a recent letter from one of his daughters. She says that her father is low spirited and can scarcely move without assistance and that his whole right side is perfectly useless. 'Uncle tries to cheer him up,' she remarks, 'but he has nothing to say.' Commenting on the state of affairs thus revealed Dr H. Lee, F. R. S., in a letter to the Lancet infers from this effort of Eng to cheer his brother a distinct and appropriate volition and vitality and hence concludes that Eng could be successfully cut from the dead body of Chang should the latter die first.

A. GILMORE, MERCHANT TAILOR, and General Outfitter, has removed his place of business to the store adjoining the Colonial Hotel and opposite the Colonist Office, on Government street, fourth door from Yates, where he proposes to give his old friends and new customers a chance on the principle of quick sales and small profits.

THE SIEGE OF PARIS.—Among the last goods that left Paris before the Prussians finally closed the city, was a large case of Alexandre's kid gloves. This case arrived at London House yesterday, via Southampton and Panama, and contains a full assortment of all the new colors.

BOARD AND LODGING.—Gentlemen can be accommodated with or without Board and Lodging, with the comforts of an English home at a private residence. Address, Mrs Bushell, Kane street, next door to Dr Bellamy's private residence.

French Medicines. TO PHYSICIANS.

PREPARED BY

GRIMAULT & CO.

PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confused with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The medicinal preparations, and only those which have undergone an examination by the Academy of Medicine, and have been proved efficacious, either in the Hospitals, or in the practice of the first medical men, are authorized by the Government. This fact must be a guarantee for the excellence of Messrs. GRIMAULT & Co's medicines.

Women's and Children's Diseases.

Grimault's Syrup of Iodized Horse Radish.

Patronized for more than twenty years by the Paris Faculty of Medicine, for the cure of scrofula, Rheumatism, Gout, Syphilis, Eczema, and all the diseases of the skin, loss of appetite, weakness of constitution, the various eruptions on the face, boils, pimples, etc.—It is the best remedy against the first stage of scrofula, and is the most powerful depurative known.

DOCTOR LERAS'

(Doctor of Medicine.)

SOLUBLE PHOSPHATE OF IRON.

Clear as spring water and tasteless, has the advantage over all ferruginous preparations of containing iron and Phosphorus, which are the elements of the blood. It cures chlorosis, pains in the stomach, difficult digestion, dyspepsia, anæmia, general debility and nervousness of the blood, and agrees especially with the most delicate stomachs.

LUNG DISEASES.

Grimault's Syrup of Hypophosphite of Lime.

It is the best and the most rational of all remedies against consumption. Under its influence the cough abates, the night sweats cease, and the patient rapidly recovers health. It gives the same results in cases of coughs, catarrhs, hoarseness, and influenza. In comparing this syrup with the solid under the same name, it will be easy to recognize the superior quality of the preparation.

Therefore to avoid any substitution, please to require the bottle the signature: GRIMAULT & Co.

NERVOUS HEADACHE

and NEURALGIA.

GUARANA.

A single powder of this natural vegetable production is sufficient to cure instantly the most violent headache. It is the most valuable remedy against diarrhoea, etc.

Digestive Powders, Pills & Elixir of PEPSINE.

It has certain effect against nausea, indigestion, heartburn, gastritis, gastric ulcers, diarrhoea, inflammation of the mucous coats of the stomach and bowels, vomiting, and pregnancy jaundice, etc.

NO MORE COPABINOL CUBERS.

Grimault's Capsules and Liquid Extract of Matiao Vegetalis.

Where all other Medicines have failed, these preparations will always effect a cure. They insure rapid and extraordinary cure of severe, recent and chronic cases of private disease. They are used in the Hospitals of Paris by the celebrated Dr. Bouchard, and are found greatly superior to all other known mineral remedies, and completely free from the unpleasant and dangerous remedies. Copalva and Mercury, in all these diseases.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S DIGESTIVE LOZENGES.

This delicious preparation is always prescribed by the most renowned medical men in France, in cases of indigestion, loss of appetite, nervousness, gastritis, gastric ulcers, long and laborious digestions, wind in the stomach and bowels, emaciation, jaundice and complaints of the liver and biliary system. They are considered by physicians as being superior to the celebrated Vichy Lozenges.

Largesse's Syrup & Faste OF SEA PINE SAP.

Facet's preparations are invaluable and taken with the utmost success for consumption and the various diseases of the chest, and especially for coughs, catarrhs, influenza, hoarseness, etc., etc., and also for the different affections of the urinary organs.

FERRUGINOUS SYRUP. OF PERUVIAN BARK.

Superior to all the compounds of Iron for all diseases of the chest, indigestion, nervous affections, painful digestion and impoverished blood; it is recognized as the best and most agreeable remedy.

ASTHMA. ASTHMA. ASTHMA. INDIAN CIGARETTES

Prepared with the Essence of Cannabis indica

Wonderful results have been obtained from the use of these cigarettes, by persons suffering from Asthma and other complaints of the respiratory organs.

Messrs. LANGLEY & CO.

YATES STREET VICTORIA.

TO PHYSICIANS.

New York August 15th, 1868.

Allow me to call your attention to my PREPARATION OF COMPOUND EXTRACT BUCHU. The component parts are, BUCHU, LONG LEAF, CUBES, JUNIPER BERRIES. MODE OF PREPARATION—Buchu, in vacuum, nupur berries, by distillation, to form a fine gum, extract by displacement with spirits obtained from Juniper berries; very little sugar is used and a small proportion of spirit. It is more palatable than any now in use.

Buchu as prepared by Druggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection it will be found not to be a Theoretic, as made in Pharmacopoeia, nor is it a Syrup, and therefore can be used in cases where fever or inflammation exists. In this you have the knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation.

With a feeling of profound confidence.

I am, very respectfully,

H. T. HELMBOLD

Chemist and Druggist of 10 years' experience

(From the largest Manufacturing Chemists in the World.)

NOVEMBER 4 1864

"I am acquainted with Mr. H. T. Helmbold; he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise."

WILLIAM WRIGHTMAN,

Firmly of Towers and Welchman, Manufacturing Chemists, Ninth and Brown streets, Philadelphia.

HELMBOLD'S

FLUID EXTRACT

BUCHU!

For weakness arising from indiscretion. The exhaustive powers of Nature which are accompanied by so many alarming symptoms, among which will be found, Indisposition to Exertion, Loss of Memory, Wakefulness, Horror of Disease, or Forbidding of Evil; in fact, Universal Lassitude, Frigidity and inability to enter into the enjoyments of society.

THE CONSTITUTION

Once affected with Organic Weakness, requires the aid of Medicine to strengthen and invigorate system, which HELMBOLD'S EXTRACT BUCHU variably does. If no treatment is submitted to, Consumption or Insanity ensues.

Helmbold's Fluid Extract of Buchu

In affections peculiar to Females, is unequalled by any other preparation, and all complaints incidental to the sex, or the decline or change.

Helmbold's Fluid Extract Buchu

IMPROVED ROSE WASH

Will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, inconvenience or exposure, completely superseding those unpleasant and dangerous remedies. Copalva and Mercury, in all these diseases.

New Remedies! New Remedies!

DR. GIBSON'S DISPE

R.

No 623 Kearney Street Corner Com-

mercial, San Francisco, established in

1854, for the treatment of Sexual

and Venereal Diseases, such as Gon-

orrhoea, Gleet, Stricture, Syphilis in

all its forms, Venereal Weakness, Im-

purity of blood, etc., etc. Skin diseases of

various kinds, such as Eczema, Scald,

etc., etc., are successfully treated.

DR. GIBSON has the pleasure of

announcing that he has returned from

visiting the principal hospitals of Europe, and has

acquired at his disposal, 623 Kearney Street, corner

of Commercial where his old patients and those requiring

his services may find him, and that he has returned

with new remedies, and has returned with increased

facilities for the alleviation of human suffering.

Remedial Weakness.

Semenal emission is the consequence of self-abuse. This

solitary vice, or depraved sexual indulgence is practiced

by the youth of both sexes to an unlimited extent, pro-

ducing with unerring certainty the following train of mor-

bid symptoms, none combated by scientific medical

measures, viz: Shallow countenance dark spots under

the eyes, pain in the head, ringing in the ears, noise like

cratling of leaves, or rattling chariot, unobscured about

the loins, weakness of the limbs, confused vision, blunted

intellect, loss of confidence, diffidence in approaching

strangers, a dislike to form acquaintances, a disposi-

tion to shrink away from society, nervous tremors, and various

cravings about the face, hectic flushes, hurried tongue,

feverish breath, consumption, night sweats, morbid and

frequent urination. If relief be obtained, you should

apply immediately, either in person or by letter, and have

a cure effected by his new and scientific mode of treating

this disease, which never fails of effecting a quick and

radical cure.

Cured at Home

Persons at a distance may be cured at home, by ad-

dressing a letter to Dr. Gibson, care of the Dispensary, length of

time the disease has continued, and have medicine prompt-

ly forwarded, free from damage and curiosity, to any

part of the country, with full and plain directions for use,

by enclosing \$5 in coin, in a registered letter, through

the Postoffice or through Wells, Fargo & Co.

A packet of medicine will be forwarded by express to

any part of the Union.

Persons writing to the Doctor will please state the

name of the paper they see this advertisement in.

Private entrance on Commercial street.
